FINDINGS OF FACT AND CONCLUSIONS OF LAW

The Petitioner herein requests a variance from Section 1802.3.C.1 of the Baltimore County Zoning Regulations (B.C.Z.R.) to permit a lot width of 77.77 feet in lieu of the required 150 feet and to permit side yard setbacks of 10 feet each in lieu of the minimum required 20 feet and a combined sum of the side yards of 20 feet in lieu of the required combined sum of 50 feet, for a proposed dwelling in accordance with Petitioner's Exhibit 1.

The Petitioner appeared and testified. Appearing as a Protestant in the matter was Lorraine K. Shifflett.

Testimony indicated that the subject property, known as 5114 Forge Road, consists of 43,600 sq.ft. zoned D.R. 1 and is presently unimproved. Petitioner testified he purchased the subject property in January 1989 with the intention of constructing a dwelling thereon. Testimony indicated that he was advised at that time by the previous owner that he had a building permit for the property. Petitioner currently resides with his parents who have rented the adjoining property, known as 5112 Forge Road, for the past 25 years. Said property is owned by the Protestant, Lorraine K. Shifflett. Testimony indicated that as a result of an existing 15-foot BG & E right-of-way easement running along the east side property line, and there being no available adjoining property on the west side

from which to obtain the additional land needed to meet zoning requirements, the relief requested is necessary in order to develop the property as proposed. Petitioner testified the relief requested will not result in any detriment to the health, safety or general welfare of the surrounding community and to require strict compliance with the zoning regulations will create practical difficulty and unreasonable hardship for him.

Lorraine Shifflett, property owner of 5112 Forge Road, appeared and testified as a Protestant. Ms. Shifflett testified that she was concerned about the value of her property being adversely affected by the proposed development of this property and that in her opinion, the relief requested was for too great a variance.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily burdensome:
- 2) whether the grant would do substantial injustice to applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give substantial relief; and
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28

It is clear from the testimony that if the variances are granted, as hereinafter modified, such use as proposed would not be contrary to the spirit of the B.C.Z.R. and would not result in substantial detriment to
